{comments on}

Для того, чтобы узнать какие USB-накопители подключались к ПК, необходимо воспользоваться программой [USBDeview](#)

The screenshot shows the USBDeview application window with a menu bar (File, Edit, View, Options, Help) and a toolbar. The main area contains a table with the following columns: Device Name, Description, Device Type, Connected, Safe To Unpl..., Disabled, USB Hub, Drive Letter, Serial Number, and Created. The table lists various USB devices, including a Samsung Digital Camera, several Mass Storage devices, HID devices, and USB Hubs. The status of each device is indicated by a colored circle in the 'Connected' column: blue for connected, grey for disconnected, and green for disabled. The status of the 'Safe To Unpl...' column is also indicated by a colored circle: blue for safe, grey for not safe, and green for disabled. The status of the 'Disabled' column is indicated by a colored circle: blue for enabled, grey for disabled, and green for disabled. The status of the 'USB Hub' column is indicated by a colored circle: blue for hub, grey for not hub, and green for disabled. The status of the 'Drive Letter' column is indicated by a colored circle: blue for drive letter, grey for no drive letter, and green for disabled. The status of the 'Serial Number' column is indicated by a colored circle: blue for serial number, grey for no serial number, and green for disabled. The status of the 'Created' column is indicated by a colored circle: blue for created, grey for not created, and green for disabled.

Device Name	Description	Device Type	Connected	Safe To Unpl...	Disabled	USB Hub	Drive Letter	Serial Number	Created
